2022-2023

## Background

Exploration University is a new program offered by MSD15 in the 2021-2022 school year. It provides engaging, problem-based learning opportunities to K-8 students outside of the typical school week.

Students will apply their knowledge in all content areas while also further developing their collaboration, problem solving, critical thinking and creativity skills.

Exploration University is held each Saturday between 9:00am-11:00am. Registration is free for families. Transportation is offered at no cost.

*We believe that the key to success can be found among the youth.*

## About us

### FACULTY

Marquardt School District 15 is partnering with Northern Illinois University to provide a co-teaching model between MSD15 teachers and college students currently studying education.

**REGISTRATION WILL BE ONLINE AT [WWW.D15.US](http://WWW.D15.US)**
